

Sirs an Ma'ams:

PLEASE take the citizens of the US seriously when it comes to adding UCE to the TCPA. As a citizen, a member of the USAF reserves, a member of the LAPD reserves, a homeowner and husband, I have paid my dues to this country. I, and those I know, are fed up with UCE SPAM. California's \$10 per law is more than a slap in the face. The federal \$500 fine for automatic dialers and unsolicited faxes should be extended to unsolicited commercial email and soon. It is out of control.

Unsolicited commercial email will fit within the text of the current TCPA perfectly. It already references using a computer to submit unsolicited faxes. Just add UCE PLEASE! Thank you for listening.
